Hotel Room Equipment Catalogue

As Kitpoint, we prioritize quality for the entire accommodation industry; offering products that are technological, stylish designed, environmentally friendly and easy to use.

We enhance your guests' accommodation experience with the in-room equipment and accessories, bringing together high quality and pleasure.

YOU CAN VISIT OUR WEBSITE TO DISCOVER MORE ABOUT OUR PRODUCTS AND REFERENCES.

www.kitpoint.com.tr

LET'S TURN THE ACCOMMODATION OF YOUR GUEST TO AN EXPERIENCE WITH ENJOYMENT

One of the most important feature is the equipment and accessories in the room that diversifies and perfects the accommodation experience. While the room equipment increases the guests' comfort with its functionality, it also brings charm to the room by its stylish design feature.

As Kitpoint, We offer to ensure your guests' experience to a perfect stay with convenient, technological, safe, ergonomic and high-quality products.

QUIET AND PEACEFUL ACCOMMODATION EXPERIENCE

In the room where your guest sleeps, relaxes, or works, unwanted noises can disrupt their comfort. We are at your service with our 100% silent minibars to avoid any unpleasant experiences. With their high cooling capacity and silent working performance, our minibars provide all the cooling efficiency more than you'd expect.

FUNCTIONAL, SAFE AND SECURE

We carefully design our hair dryers to ensure your guests daily routines easily and safely.

ENJOY AT EVERY SIP

After long journeys, we greet your guests in their rooms with high quality and elegantly designed welcome trays. With our kettles, we transform their tiredness into pleasure with a warm cup of tea or coffee.

PROVIDING THE BEST AND THE NEWEST

With over 15 years of experience, improved innovation and our expert R&D team; we're dedicated to deliver a premium and safe user experience to introduce innovative solutions with our products.

WORKING FOR A SUSTAINABLE FUTURE

As being an environment-friendly brand, we deeply understand the importance of recycling. Therefore, we ensure that all our postproduction waste and products past their lifespan can be easily separated for recycling.

WE ALSO CARE IN LOGISTICS

We maintain our sustainability goals in our logistics activities by packaging all our products in accordance with the dimensions of the product design. By this way, we're steadily moving forward with our principle of reducing our carbon footprint in the nature.

A woman with long brown hair tied back, wearing a red top and a green skirt, is sitting on a brown upholstered chair at a wooden desk. She is looking down at a black minibar unit integrated into the desk. The minibar door is open, revealing a blue interior with shelves holding a Coca-Cola can and a green bottle. On the desk, there is a laptop, a red pitcher, a red cup, and some papers. The background is a textured wall with a dark horizontal band.

MINIBARS

THE QUIETEST FORM OF TECHNOLOGY

Considering user satisfaction and comfort all of our minibars are designed with new generation technologies.

Therefore;

- Absorption and Thermoelectric systems minibars are not just eco-friendly, they are reliable too.
- There are no moving parts inside, so it works smooth and quite.
- They have a superior performance in terms of low energy consumption.
- Suitable for air-conditioned environments. (In order to get the desired performance from our products, ambient temperature has to be 89,6F (32°C) for room and interior cabinet of the furniture.)

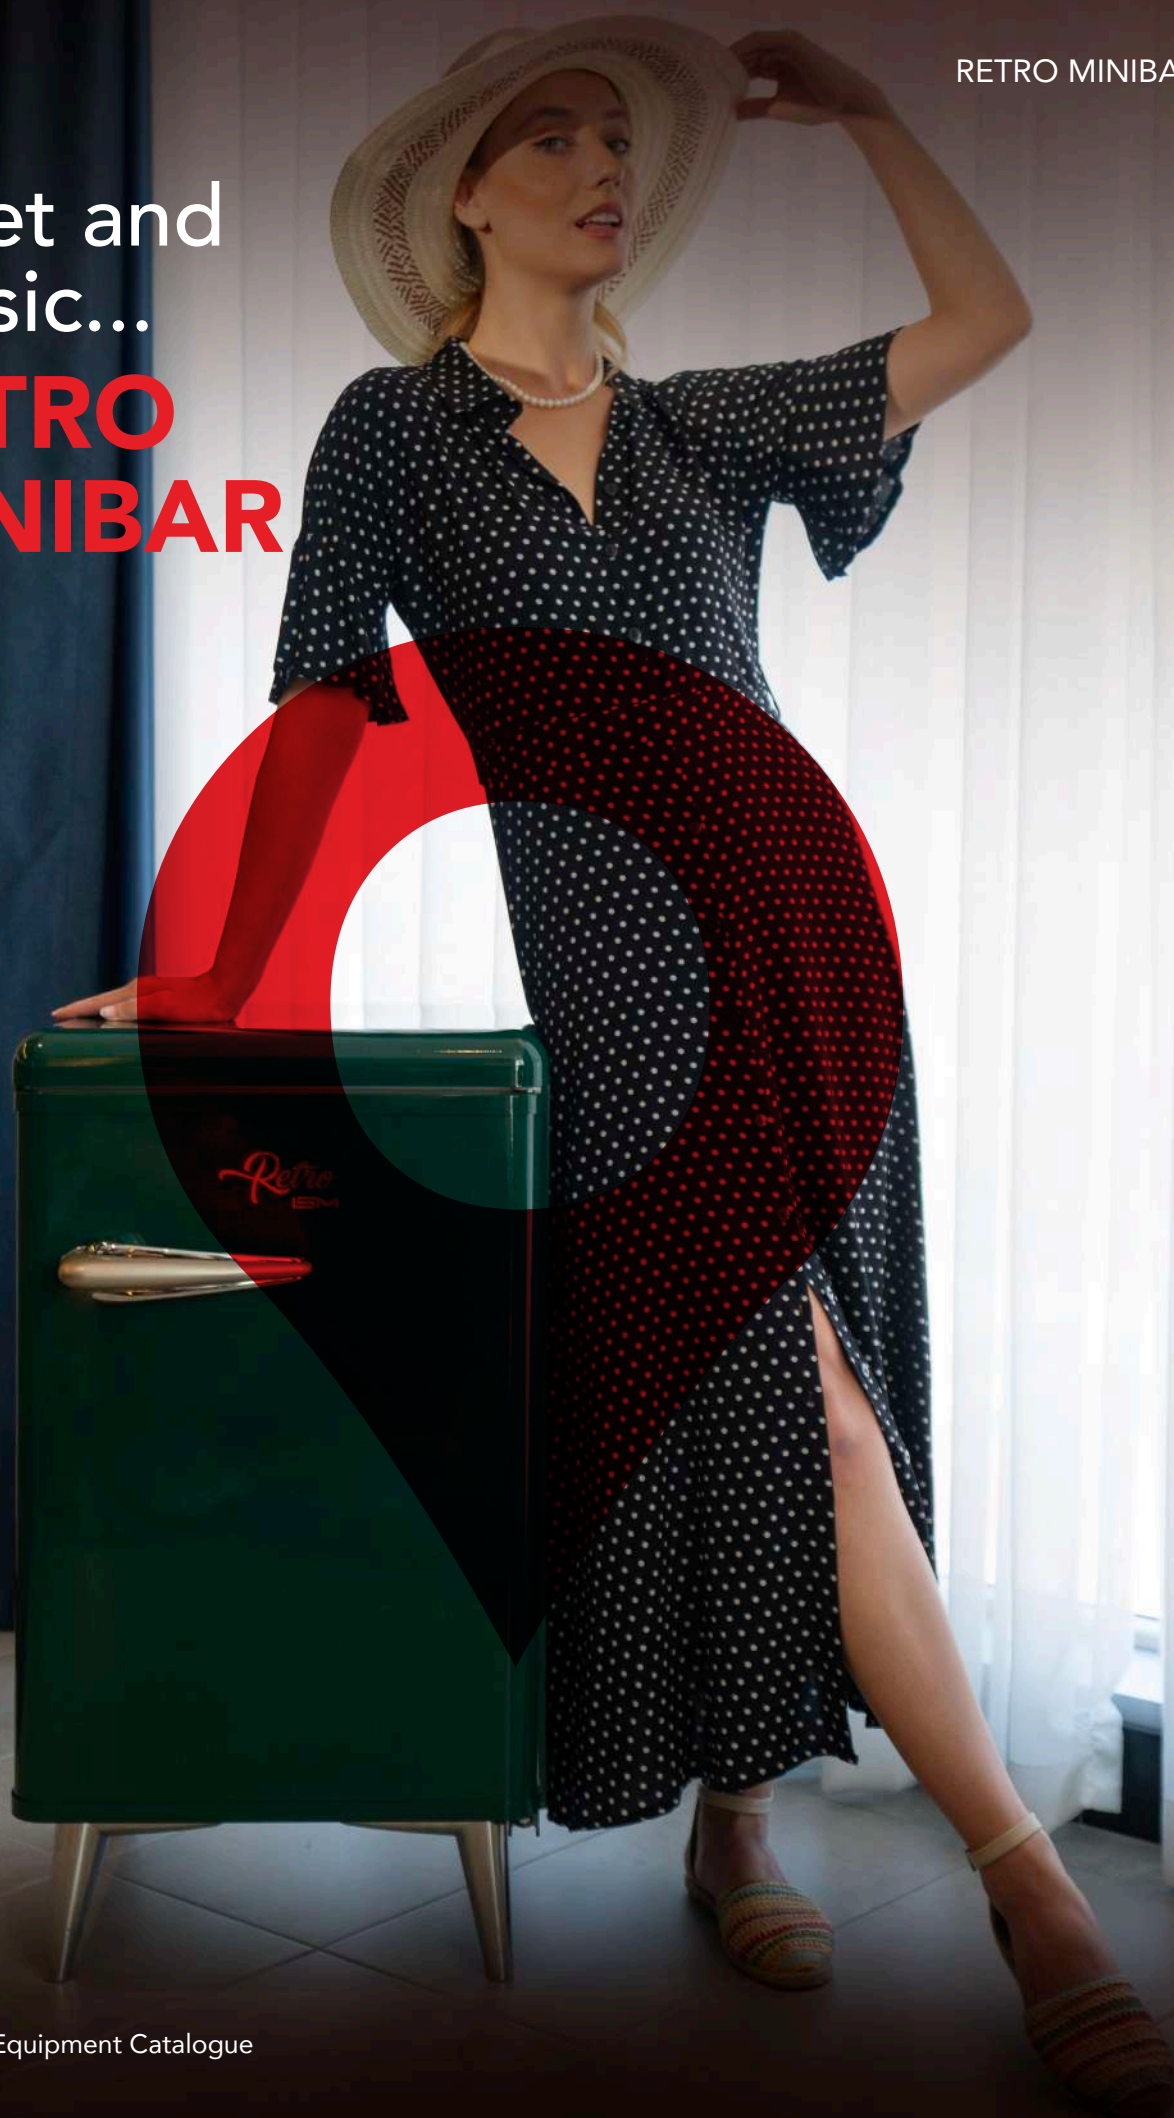

Our minibar manufacturing facility is certified according to ISO 9001 and ISO 14001 standards. Our Products are subjected to European regulations (Ecodesign and Energy Labelling Directive 2009/125/EC and Regulation (EU) 2017/1369).

We take the same care in ensuring satisfaction during the use of our products as we do in our sales and after sales services.

With our thoughtful and solution focused team, we are with you 24/7.

Pioneers of the innovation...

PELTIER

In 2011, we lead the way in Turkey and began introducing our Peltier System minibars with only 0.26 kWh/24h energy consumption (Solid Door).

Peltier Model products offer businesses low energy consumption, silence and durability, while providing guests with ideal cool comfort.

Bringing aesthetics and comfort together, Peltier System minibars are favored by domestic and international hotel chains and hospitals due to their top tier energy efficiency.

The Thermoelectric model, capable of operating at different angles and inclinations, stands out as the optimal choice for cruise ship use. This eco friendly model impresses with its elegance, endurance and decorative harmony.

Perennial performance...

ABSORPTION SYSTEM

Introducing our top of the line Absorbe minibar models, designed for premium spaces like hotel and hospital rooms. With their advanced silent and vibration free operation, these minibars enhance every guest's experience. They operate at an ultra quiet 0 dB, ensuring a peaceful environment for your guests. The unique cooling method involves heating a mixture containing ammonia, which means no moving parts, zero maintenance costs and increased durability. This ensures a longer lifespan and significant savings for your business.

A new dimension in cooling performance...

ECO MODEL

Eco Model Absorption System minibars, available in 27, 30, 40, 50, and 60 liters capacities, fit perfectly in any rooms of any size, offering both sophistication and convenience.

Developed with top-notch isolation and cutting-edge technology, these minibars ensure beverages remain refreshingly cool, allowing guests to set their preferred temperature using an adjustable thermostat.

Moreover, the 27, 30, and 40 liter Eco models stand out as the only Absorption System products made in Türkiye that covered by European Energy Regulations.

A woman with long brown hair, wearing a white bathrobe, is smiling and looking upwards while holding a black hair dryer. The hair dryer has a silver-colored nozzle and the brand name 'HAIKON' is visible on its side. The background is a hotel room with a warm, ambient light from a hanging lamp and a dark curtain on the left.

HAIR DRYERS

Power and energy savings together

WALL MOUNTED MODELS

Daily necessity and predominantly used by female guests, hair dryers have become essential bathroom accessories in hotels rated 3 Stars Hotels and above, as well as in boutique accommodations.

Specifically designed for the hospitality industry, our hair dryers are crafted with cutting-edge technology, prioritizing user-friendly features and durability. For businesses, we deliver equipment that not only looks sleek but also promotes energy efficiency. For guests, we ensure accessories that offer the ultimate convenience and comfort.

Durable and user friendly...

DRAWER TYPE MODELS

Drawer type models are the be preferred for smaller hotel bathrooms, spaces with limited wall hanging areas and for designers who aim both to conceal the product and ensure easy access to the electrical connection. They are practical, user friendly solutions that meet diverse needs.

Crafted with sleek design, durability and cutting-edge technology, our drawer type hair dryer is available in a powerful 1875W option.

With temperature and airflow settings, complemented by a "cool mode", our product delivers the performance your guests expect from a hair dryer.
